THE CASE

On 4 June 2026 Ramp announced a \$750M primary Series F at a \$44B valuation, led by ICONIQ, GIC and Ontario Teachers' Pension Plan, with Goldman Sachs Alternatives, D.E. Shaw, Morgan Stanley Investment Management and Insight Partners joining. The company says it has surpassed \$1B in annualized revenue, is free-cash-flow positive and serves more than 70,000 businesses, among them Visa, Uber, Shopify, Anduril and Figma; Bloomberg puts run-rate revenue above \$1.5B. In March it bought Billhop to open London and Stockholm offices and onboard UK- and EU-headquartered businesses directly from summer 2026.

Ramp has started buying sport: in April it became Official Exclusive Corporate Card of The Snow League in a multi-season deal. Its cards run on the Visa network and Visa is a customer. Fintech is the fastest-growing category on the grid, but this lane is corporate cards and spend software, not consumer payments, and it belongs to no team. Note: the 1440 human layer has already approached Ramp; this brief refreshes that conversation.

WHY NOW

The round closed on 4 June and European onboarding opens this summer, so Ramp needs a European stage in the quarter it arrives. Teams close 2027 rosters in Q4; the Italian GP in September is the home race, and the United States GP (Austin) and Las Vegas GP follow.

GRID FIT — CATEGORY-WHITESPACE CHECK ACROSS THE F1 GRID (SPONSOR TABLE; 49 OF 346 PARTNER ROWS CATEGORISED)

Visa Cash App Racing Bulls ◆ RECOMMENDED	PRIME LANE	documented open category: spend management (complements Visa, not conflicting)
Mercedes-AMG Petronas F1 Team	OPEN	no rival in this category lane
Oracle Red Bull Racing	OPEN	no rival in this category lane
Scuderia Ferrari HP	OPEN	no rival in this category lane

BOTTOM LINE

A \$750M raise at \$44B, \$1B+ in annualized revenue and a Visa card programme give Ramp the budget and the warm path onto the Visa-titled Racing Bulls, where spend management is an open lane and Europe opens this summer. Already approached by the human layer: refresh, do not re-pitch.

WHY VISA CASH APP RACING BULLS

Racing Bulls is titled by Visa and Cash App, with Siemens, Dynatrace, Confluent and Randstad on the roster. Spend management is listed as an open category that complements Visa rather than conflicting with it. Ramp's cards are Visa cards, so the title partner gains a card programme on its own car, not a rival. The team's younger, digital audience matches the founder-led firms Ramp sells to, and an Italian team is the first European reference Ramp can name.

VALUE TO VISA CASH APP RACING BULLS — MODE A (TECH IN THE CAR / CHAMPIONSHIP)

MODE A - operational. Ramp becomes the team's card and spend platform: corporate cards for travelling staff at 24 rounds, automated expense capture, vendor and bill payments and real-time spend controls that map to cost-cap reporting. With EU onboarding opening this summer, Racing Bulls is Ramp's European launch reference. In return: Official Corporate Card and Spend Management Partner, a Ramp-Visa card activation, sidepod placement and Austin and Las Vegas hospitality for Ramp's CFO audience.

DEAL ARCHITECTURE

Entry as Official Corporate Card and Spend Management Partner. **THREE YEARS**, 2027-2029, spanning the European launch and a probable listing window. Estimated \$4-7M a year, part in platform services. Scope: sidepod and helmet placement, a co-branded card activation with Visa, US-race hospitality, finance content.

PRIMARY DECISION-MAKER

Eric Glyman
CO-FOUNDER & CEO, RAMP · **VERIFIED**

Glyman co-founded Ramp in 2019 and fronts every raise; a first F1 deal is his call. Path: Karim Atiyeh, Co-Founder and CTO, who oversees risk, operations and marketing; Will Petrie, CFO since January 2025. No chief marketing officer is listed.

OPENING ANGLE

Lead with the Visa connection.

“Eric, your cards are Visa cards and Visa's name is on the Racing Bulls. You open Europe this summer, the team is Italian, the spend lane is open. 25 minutes before Monza to see what a Ramp card on that car does?”

SCORE COMPOSITION

TIMING 18 / 20 Round closed 4 June; Europe opens this summer; Monza and Austin inside the window.	CAPACITY 19 / 20 \$750M raised at \$44B; \$1B+ annualized revenue; cash-flow positive. RISKS & COUNTERS

ALREADY APPROACHED The 1440 human layer has already approached Ramp on this recommendation; a cold re-pitch would look uncoordinated. **Counter:** Use this brief as the refreshed dossier inside the live conversation, routed through whoever holds the relationship.

EUROPE NOT YET LIVE Direct onboarding of EU-based businesses starts only in summer 2026, and Cash App's parent Block also sells to businesses. **Counter:** Make the team the European launch customer; agree the category carve-out (corporate cards, spend software) with Visa and Cash App up front.
