

SnapLogic

Agentic Integration / iPaaS · San Mateo, CA · Private (a16z, Microsoft, Silver Lake Waterman, Sixth Street, Capital One Ventures)

SnapLogic appointed a President and expanded its C-suite the same day; rival Confluent is already on the Williams livery - and SnapLogic cannot cede the enterprise-credibility stage to a competitor.

THE CASE

On 12 May 2026 SnapLogic appointed Molly Matthews (ex-Microsoft enterprise GTM) as President while promoting its CCO and CPO - a deliberate scale-up with new budget authority. Backed by a16z, Microsoft, Silver Lake Waterman, Sixth Street and Capital One Ventures, with \$100M+ ARR (Aug 2025) and customers including AstraZeneca, Adobe, Verizon and Sony. The decisive signal: Confluent, a direct iPaaS rival, is an active partner on the Williams 2026 livery.

WHY NOW

Matthews's appointment created a leadership window in which new Presidents approve first-mover brand investments; Confluent's Williams presence hardens every race. A rival-team announcement reframes the narrative before it solidifies.

DISCOVERY: SEED

WHY ASTON MARTIN

Aston Martin (or McLaren) places SnapLogic directly opposite Confluent's Williams partnership - turning a competitor's sponsorship into SnapLogic's urgency argument, in front of the same CTO/CDO audience.

VALUE TO ASTON MARTIN — MODE A (TECH IN THE CAR / CHAMPIONSHIP)

MODE A. Integration/automation tooling maps to a team's sprawling systems estate (sponsor data, logistics, telemetry pipelines), supporting a real technical-partner narrative rather than a logo.

DEAL ARCHITECTURE

Associate/official partner tier on Aston Martin or McLaren: garage access, digital inventory, B2B hospitality. MINIMUM THREE YEARS (re-architected up from the original two-year proposal) at ~\$3-5M/yr, calibrated to \$100M+ ARR.

PRIMARY DECISION-MAKER

Molly Matthews
PRESIDENT, SNAPLOGIC (APPOINTED MAY 12 2026)
Former Microsoft enterprise GTM leader with deep experience scaling commercial organisations. First major brand-investment decisions fall within her new mandate.

OPENING ANGLE

"Your closest competitor just bought a car. Which grid slot is SnapLogic taking - for the next three years?"

SCORE COMPOSITION

TIMING 17 / 20 President Molly Matthews appointed May 12 2026; honeymoon window narrowing.	CAPACITY 16 / 20 \$100M+ ARR (Aug 2025), a16z-backed balance sheet.	BRAND FIT 16 / 20 Agentic integration maps to F1 precision; direct counter-narrative to Confluent.	URGENCY 15 / 20 Confluent (direct iPaaS rival) is on the Williams 2026 livery.	OPS FIT 14 / 20 MODE A: integration tooling has a credible team-systems use.

RISKS & COUNTERS

BUDGET NOT YET UNLOCKED Matthews is weeks into the role; budget cycles may lag. **Counter:** Frame as a founder-level decision (CEO + President); offer a short-form LOI to hold inventory.

CONFLUENT EXCLUSIVITY CLAUSE Williams may hold data-integration category exclusivity. **Counter:** That is the argument for a rival team - exclusivity elsewhere is a feature.
